

"Maximising Value Behind the Veil": looking beyond the corporate personality

Gatehouse Chambers' Commercial Dispute Resolution and Insolvency Teams are delighted to announce the dates of their seminar series for 2022. These interactive sessions will be a mixture of online and in-person seminars.

The series will consider the important aspects of the duties of directors and the claims against them from solvency through the twilight zone and into insolvency. The series will then, in the Autumn, move on to look at some of the technical aspects of tracing assets whether against errant directors once claims have been successful, or in the insolvency context. We are hoping to be joined in the Autumn seminars by a series of external speakers and details will be announced in due course.
