1pm - 5pm, Thursday 12 February 2026
The Hilton, Cardiff

Programme

Recent cases and developments

A review of cases over the last year or so, delivered with a unique Gatehouse twist and plenty of audience participation.

“What would you do?”

An evolving case study, where attendees decide what to do as the (largely fictional...) adjudication progresses. This year, AI is generating problems (or maybe providing solutions?) for our hapless adjudicator and parties.

“The Repair Café”

In homage to the global Repair Café movement, we'll be 'fixing' adjudication - or debating whether it needs fixing at all.

Bring your stories, suggestions, and ideas for improvement to discuss with our team. Scan the QR code or follow the link in the description to submit your ideas.
